TiteSpot™ Marking System

**Unique Cartridge
Loading System
Eliminates Ink
Handling**

*Knurled housing for easy
cartridge replacement*

Mounts Anywhere, Any Position

TiteSpot™ is a new automatic marking system featuring: replaceable, reloadable, disposable marker cartridges in a unique air operated spring assembly that eliminates handling inks or refills. It is only available from Dell Marking Systems of Ferndale, Michigan.

Compact and lightweight, only 5" long, a TiteSpot assembly can be mounted anywhere, in any position. Complete assemblies include: a double acting cylinder, a patented ink cartridge, spring and an aluminum housing. No skilled trades or tools are required to replace the empty disposable cartridge. It reloads in seconds. Cycle time is adjustable up to 250 milliseconds per spot.

7 ml cartridges are available from stock in sixpack cartons or 24 pack cases. Standard TiteSpot colors are: black, blue, green, red, orange and yellow. Custom colors are also available. Dell provides complete marking system design and build services, and formulates workplace safe, low VOC pigmented and non-pigmented inks. Standard Dell Marking System Ink colors are: yellow, red, green, blue, and white.
